#### GOSSIP OF WALL STREET.

Having very few orders to execute again resterday afternoon brokers on the floor traction yesterday and, as was the case on yesterday afternoon brokers on the floor of the exchange revived drooping spirits by horseplay until the chairman's gavel brought them back to business half an hour before closing. Presentation of a gift to before closing. Presentation of a gift to be of the oldest members, songs, practice of the oldest members o before closing. Fresentation of a gift to one of the oldest members, songs, practical pakes and a deafening hubbub drew attention temporarily from the current aspecities of the brokerage business. When the horseplay was over business was not much more active than before, but the market became stronger toward the close and save some encouragement to the hope that it is creeping gradually upward.

The idea that this is an upward creeping market is derived principally from the cheapness of money. Most people in the Street believe that the greater part of the Street believe that the greater part of the Street believe that its, in the service of the proceding day's advance on heavy realizing sales. Standard Oil was slightly lower at 610. An active fracture of the vanced 4½ to 5/6. Hamburg advanced 5½ to 5/4 pfg. Rio advanced 25 reis; exchange, tending was El Rayo, which rose to 4½. Transactions in detail in the market year tenday were as follows:

Sales.

Open- High- Low- Clossing the deviced principally from the Street believe that the greater part of the Street bel

rivable from putting out money at either are selling close to a 8 per cent, investment cent, and over the year money only 4% per cent., and it is hard to lend very much at those rates. Most of the dividend paying stocks more than pay their keep at current interest rates. It might be said that it is heaper for men of means and credit to have stocks than to be without them. Often on similar occasions in the past Wall Street couldn't see an excuse for a bull movement. cause people who are never happy unless money. The few buils in the Street now derive most of their courage from this easy money, but none of them has bought many stocks up to the present.

Some of the ordinarily inactive invest ment shares didn't creep yesterday. They soared like airships. Jersey Central, following the declaration of an extra dividend. ounded up 25 points to 285. Hocking Valley preferred shot up 8% points to 101% after became known that the courts had dissolved the injunction restraining the retirement of the preferred and that bankers had renewed the offer to buy it at par and interest. Manhattan Elevated progressed 6 points to 138 on no news whatever. ontrast with these, 100 shares of Metropolitan Street Railway, which is not an investment stock, went at 0, as compared with a price of 15 at the last previous sale.

The news of the day was generally favorable. The weather map was excellent, as it was on Monday, and stimulated interest. in some of the grangers. More important was the official announcement of the sale of \$25,000,000 Southern Pacific bonds in Berlin. To this particular interest attached because it had previously appeared that foreign bankers were waiting for Congressional action on the railroad bill before concluding negotiations.

In recent years it has become more and more the custom for prominent financiers to take vacations in the winter and early spring and return to town before the time in mideummer when an approximately Greene Cananea correct forecast of the crop can be ascertained. In respect to the crops the spring Havana Tobacco. and early summer months constitute a Havana Tobacco pf. between seasons period in the markets, a time in which many important plans are | International Sait. normally held in abeyance pending dis-covery of the value of the annual products | Kerr Lake..... of the farms. Largely on that account the La Rose ... stock market in recent years has become more active as the summer has advanced. In the last four years August has been one of the liveliest months of the year, partly on account of crop news and partly Onio Copper on account of extraordinary developments In 1966 the declaration of the famous Harriman dividends fanned an active market So Iron & Steel w L 1907 the \$29,000,000 Standard Oil fine came Standard Milling siong on the first of August to start things | Standard Milling pf. going. In 1908 three big and sensational Standard Oil of bear houses shot stocks up, and Tonopan Mining. lest year the August market was a tre-mendously tumultuous and erratic affair because of Mr. Harriman's last illness. United Copper pf. United Copper pf. Brokers are hoping that history will repeat itself in an active July and August market this year.

of the copper market: "It is the production | Cons S S of copper rather than the consumption Western Pacific is which unsettles the market, especially as, taking a long distance view of the situation the outlook is continually for more copper more in 1910 than in 1909 and more in 1911 months of 1910 was 590,000,000 pounds, compared with 565,000,000 pounds in 1909. hopes having been entertained that good mines in 1910 would enable demand to keep pace with supply, discouragement is proportionately keen at the prospect that these expectations may be disappointed. If the market has been leaning on a broken reed in this respect there would seem to be nothing now in the absence of a copper demand except for the inexorable law of supply and demand to take its course until equilibrium between supply and demand is established.

Reading owns \$14,500,000 of the \$27,000,000 Jersey Central stock and will profit most from the declaration of the 2 per cent. extra dividend which Jersey Central directors declared yesterday from the earnings of the Lehigh and Wilkesbarre Coal Company Last November Jersey Central declared an extra dividend of the same amount as that declared yesterday, so that in the current fiscal year the company has declared 12 per cent. in dividends. Reading in the same period receives \$1,740,000 from its Jersey Central holdings, or an amount equivalent to 215 per cent on the \$70,000.000 Reading etoris outstanding.
